

Santa Drawing Game

- In the middle of your paper draw a nice big Santa body.
- Now on top of that, we draw his head.
- Santa needs arms to deliver all those presents so give him a left arm and a right arm.
- Let's also make sure we draw his face and beard on his face.
- Santa, of course, also needs legs so give him a right leg and a left leg.
- Next to Santa we need his big Santa sack.
- Let's put a moon in the sky and some stars to light his way.
- Oh, we can't leave it there without drawing some presents for in the Santa sack.
- And to make sure Santa isn't cold, let's put his hat on too.
